Notes to the Condensed Interim Consolidated Financial Statements
For the three and nine months ended December 31, 2025 and 2024
(Unaudited - Expressed in Canadian dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Targa Exploration Corp. ("Targa" or the "Company") was incorporated pursuant to the *Business Corporations Act* of British Columbia on September 26, 2017. The Company's registered office is located at #1723-595 Burrard Street, Vancouver, BC, V7X 1J1. On September 27, 2022, the Company's common shares commenced trading on the Canadian Securities Exchange under the ticker symbol "TEX". On October 7, 2022, the Company's common shares commenced trading on the Frankfurt Stock Exchange under the ticker symbol "V6Y". On May 17, 2023, the Company's common shares commenced trading on the OTCQB Venture Market under the ticker symbol "TRGEF".

On May 27, 2025, the Company underwent a five-for-one share consolidation of its issued and outstanding common shares. All share figures in these consolidated financial statements are shown as post-consolidated shares.

The Company is in the business of acquisition, exploration and development of mineral properties. The business of mining and exploration involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of exploration and evaluation expenditures is dependent upon several factors. These include the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development of these properties, and future profitable production or proceeds from disposition of mineral properties.

These unaudited condensed interim consolidated financial statements for the three and nine months ended December 31, 2025 and 2024, (the "financial statements") have been prepared on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations for at least the next twelve months. As at December 31, 2025, the Company had a working capital surplus of \$416,516 (March 31, 2025 - a working capital deficit of \$473,732) and an accumulated deficit of \$18,538,434 (March 31, 2025 - \$15,624,795). For the three and nine months ended December 31, 2025, the Company generated net loss of \$1,501,450 and \$2,913,639, respectively (2024 - \$224,662 and \$2,377,864, respectively) and used cash in operating activities of \$3,405,976 (2024 - \$2,698,707). These factors indicate the existence of a material uncertainty that may cast significant doubt upon the Company's ability to continue as a going concern. As a result, the Company may be unable to realize its assets and discharge its liabilities in the normal course of business.

The Company's continued operations are heavily dependent on its ability to raise additional capital through equity or debt financing. The Company does not currently generate revenues from ore production or other operating activities, and therefore has no internally generated cash flows to fund its ongoing activities.

Subsequent to period-end, the Company is pursuing financing initiatives which, if successful, are expected to provide sufficient liquidity to fund operations for the next twelve months. However, there can be no assurance that such financing will be available or secured on favorable terms. Should capital markets deteriorate or investor interest in exploration-stage companies decline, the Company may face significant difficulty in securing the necessary funding, which would adversely affect its ability to continue operations.

Although the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms advantageous to the Company. Should the Company be unable to continue as a going concern, asset and liability realization values may be substantially different from their carrying values. These financial statements do not reflect such adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. Such adjustments could be material.

2. BASIS OF PREPARATION

a) Statement of compliance

These financial statements were approved by the Board of Directors and authorized for issue on February 26, 2026.

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board and interpretations of the International Financial Reporting Interpretations Committee applicable to the preparation of interim financial statements including International Accounting Standard 34 Interim Financial Reporting. These financial statements do not include all disclosures required for annual audited financial statements. Accordingly, they should be read in conjunction with the notes to the Company's audited financial statements for the years ended March 31, 2025 and 2024 (the "Annual Financial Statements").

Notes to the Condensed Interim Consolidated Financial Statements
For the three and nine months ended December 31, 2025 and 2024
(Unaudited - Expressed in Canadian dollars)

2. BASIS OF PREPARATION (continued)

b. Basis of presentation

The financial statements have been prepared using the historical cost basis, except for certain financial assets and liabilities which are measured at fair value, as specified by IFRS for each type of asset, liability, income, and expense as set out in the accounting policies below, as well as information presented in the consolidated statement of cash flows.

c. Functional and presentation currency

The functional currency is the currency of the primary economic environment in which an entity operates. These financial statements have been prepared in Canadian dollars, which is the Company's and its subsidiaries functional and presentation currency, except as otherwise noted.

d. Basis of consolidation

These financial statements include the accounts of the Company and its wholly owned subsidiaries, 1326091 B.C. Ltd and Pan Canadian Lithium Corp. All intercompany transactions and balances are eliminated on consolidation. Control exists where the parent entity has power over the investee and is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. A subsidiary is included in the financial statements from the date control commences until the date control ceases.

3. MATERIAL ACCOUNTING POLICY INFORMATION

The same accounting policies and methods of computation are followed in these financial statements as compared with the Annual Financial Statements.

4. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of financial statements under IFRS Accounting Standards requires management to make judgements in applying its accounting policies and estimates that affect the reported amounts of assets and liabilities at the period end date and reported amounts of expenses during the reporting period. Such judgements and estimates are, by their nature, uncertain. Actual outcomes could differ from these estimates.

The impact of such judgements and estimates are pervasive throughout these financial statements and may require accounting adjustments based on future occurrences. These judgements and estimates are continuously evaluated and are based on management's experience and knowledge of the relevant facts and circumstances. Revisions to accounting estimates are recognized in the period in which the estimate is revised and are accounted for prospectively.

In preparing these financial statements, the Company applied the same significant judgements in applying its accounting policies and is exposed to the same sources of estimation uncertainty as disclosed its Annual Financial Statements.

5. PREPAID EXPENSES AND DEPOSITS

A summary of the Company's prepaid expenses and deposits is as follows:

	December 31, 2025	March 31, 2025
	\$	\$
Prepaid expenses	8,443	20,636
Deposits	160,977	5,200
	169,420	25,836

The Company made deposits to Kenorland Minerals North America Ltd. ("Kenorland"), which will be applied against future exploration work.

Opinaca Gold Projects and Superior Lithium Projects

On January 25, 2023, Targa entered into a purchase and sale agreement with Kenorland and acquired a 100% undivided interest in two lithium exploration projects in exchange for 4,377,375 common shares of the Company with a fair value of \$1,926,045, a cash payment of \$100,000, and a 3% Net Smelter Returns royalty ("NSR"). The project located in the James Bay region of northern Quebec is generally known and described as the "Opinaca Gold Project", and the project located in eastern Manitoba is generally known and described as the "Superior Project".

As additional consideration, the Company was required to issue 9.9% of any future common share issuances subsequent to January 25, 2023, to Kenorland up to a number of common shares with an aggregate fair value \$5,000,000 (Note 12). On October 18, 2023, the Company partially fulfilled its obligation to issue 9.9% of its common shares associated with future financings to Kenorland through issuing 60,293 common shares with a fair value of \$69,336. The shares represent 9.9% of the common shares issued in the private placement which closed on August 15, 2023.

On January 10, 2024, the Company partially fulfilled its obligation and issued 291,983 common shares with a fair value of \$167,891. The shares represent 9.9% of the common shares issued in the private placement which closed on December 22, 2023.

On July 22, 2024, pursuant to the purchase and sale agreement, the Company issued 189,785 common shares with fair value of \$90,148 which was recorded to exploration and evaluation expenditures to satisfy the 9.9% requirement. As at December 31, 2025, the Company satisfied this commitment (Note 12).

The Company sent notice to Kenorland Minerals on November 27, 2025 that it does not intend to renew the Superior Lithium mineral exploration licenses when the payments in lieu of work required to maintain them come due on February 27, 2026. As per the terms of the January 2023 purchase and sale agreement, Kenorland has the right to receive the mineral exploration licenses back if Targa does not plan to keep them in good standing.

MUL Projects

On May 11, 2023, the Company completed the acquisition of a 100% interest in the Leaf River Lithium Project, the Raglan South Lithium Project, and the Musquaro Lake Lithium Project (collectively the "MUL Projects") from a syndicate of sellers consisting of Shawn Ryan, Wildwood, Isaac Fage, Callum Ryan, Simon Cash and Adam Fage (collectively, the "Sellers").

In accordance with the agreement, the Company acquired a 100% interest in the MUL Projects, in exchange for 1,500,000 common shares of the Company ("Consideration Shares") with a fair value of \$2,400,000 (issued), a payment of \$315,000 in cash to Wildwood (paid) and another payment of \$315,000 in cash (paid in shares) upon closing of a financing of a minimum of \$1,000,000 in net proceeds and a 1% NSR granted to Shawn Ryan. The Sellers entered into a voluntary escrow arrangement whereby one-third of the Consideration Shares were released from escrow every four months after May 1, 2023 (completed).

The Company sent notice to Shawn Ryan on December 4, 2025, to notify him that the Company did not intend to renew the MUL project claims, which were expiring on February 4, 2026.

6. EXPLORATION AND EVALUATION EXPENDITURES (continued)

Sky-Jim, Prince Albert Lake and White Metal Lithium Projects

On May 19, 2023, the Company acquired a 100% interest in the Slim Jim and Sky Lake Projects (collectively the “Sky-Jim Lithium Projects”), White Metal Lithium Project and Prince Albert Lake Lithium Project with its acquisition of Pan Canadian Lithium. Most of the claims have either expired or will expire within the next twelve months. The Company does not intend to restake the expired claims. After the desktop studies and fieldwork conducted since 2023 they have been determined by Targa’s technical team to be of low prospectivity.

North Lithium - Pegmatite, Harricana and Other Ontario Lithium Projects

On January 10, 2024, the Company acquired a 100% interest in the Case Lake, Detour West and Lakeshore lithium projects (collectively the “Other Ontario Lithium Projects”), Pegmatite Beach (“North Lithium - Pegmatite Project”) and Harricana Lithium Project in exchange for 1,500,000 common shares of the Company at a price of \$0.575 per share for a total fair value of \$862,500, a 1.0% NSR granted to 1384025 B.C. LTD., a cash payment of \$100,000 (paid), \$277,861 (paid), and \$377,861 (paid in shares).

During the year ended March 31, 2025, all Other Ontario Lithium mineral claims expired.

El Zanjon Project

On November 7, 2025, the Company entered into option agreements with Aegis Resources Ltd. and other parties to acquire up to an 80% interest in each of the El Zanjon and Venidero gold-silver projects in Santa Cruz, Argentina. Under the terms of each option, the Company may earn its interest by completing a feasibility study supported by a minimum two-million-ounce AuEq resource and reserve estimate, drilling 23,000 metres on each project, and making total payments of \$25,000 in cash (paid) and \$1,000,000 in share issuances over a three-year period. Complete details of the option agreements can be found in Company press release dated November 10, 2025.

7. FLOW-THROUGH PREMIUM LIABILITY

Flow-through shares are issued at a premium, calculated as the difference between the price of a flow-through share and the price of a common share on the date of issuance. The tax deductions generated by the eligible expenditures are passed through to the shareholders of the flow-through shares once the eligible expenditures are incurred and renounced.

On June 6, 2025, the Company closed a private placement for aggregate gross proceeds of \$2,611,200 by issuing 6,650,200 common shares of the Company (“HD Share”) at a price of \$0.10 per HD Share, 1,959,001 flow-through shares of the Company (“FT Share”) at a price of \$0.12 per FT Share and 12,050,000 charity flow-through shares of the Company (“CFT Share”) at a price of \$0.142 per CFT Share. Gross proceeds from the private placement were allocated using the residual value method, the gross proceeds from the FT Share and CFT Share were first allocated to common share at that date and then to the flow-through premium. As a result, \$nil was allocated to the flow-through premium and remaining proceeds of \$2,611,200 were allocated to the common shares using the residual value method.

d) Stock options

The Company has a Stock Option Plan (the "Plan") under which directors, employees and consultants are eligible to receive stock option grants. Under the Plan, granted options are exercisable over periods up to 10 years as determined by the Board of Directors. The maximum number of outstanding options under the plan is limited to 10% of the number of issued and outstanding common shares.

On June 23, 2025, the Company granted stock options to its directors, officers, consultants and employees, under the Company's stock option plan. The Company issued 2,570,000 stock options with an exercise price of \$0.16 and expiry date of June 23, 2030. The following is a summary of the Company's inputs used in the Black-Scholes option pricing model for the grant.

9. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

As at December 31, 2025, financial instruments comprising cash, deposits, accounts payable and accrued liabilities are classified and measured at amortized cost. The carrying value of cash, deposits, accounts payable and accrued liabilities approximate the fair value due to the relatively short-term maturity of these instruments.

The Company is exposed in varying degrees to a variety of financial instrument related risks. The type of risk exposure and the way in which such exposure is managed is provided as follows:

a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to fulfill its contractual obligations. The Company's credit risk relates primarily to cash and deposits. The Company minimizes its credit risk related to cash by placing cash with major financial institutions and deposits with recognized creditworthy third parties and regularly reviews the recoverability of them.

b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they come due. The Company is exposed to liquidity risk through accounts payable and accrued liabilities and it does have sufficient cash resources to pay for its financial obligations.

As at December 31, 2025, the Company did not have sufficient cash on hand to discharge its accounts payable and accrued liabilities as they become due. As the Company's operations do not generate cash, financial liabilities are discharged using funding through the issuance of common stock or debt as required, the Company may need to seek a combination of debt and equity to meet the spending requirements to continue its operations.

c) Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates and foreign exchange rates. The Company is not exposed to significant interest rate risk on the basis that its financial liabilities bear no interest or interest at fixed rates. The Company does not carry financial assets or liabilities that are denominated in a foreign currency and is therefore not exposed to significant foreign exchange rate risk.

10. RELATED PARTY TRANSACTIONS

Key management personnel include those persons having the authority and responsibility of planning, directing and executing the activities of the Company. The Company has determined that its key management personnel consist of executive and non-executive members of the Company's Board of Directors and corporate officers.

A summary of the Company's related party transactions with key management for the three and nine-month periods ended December 31, 2025 and 2024, is as follows:

10. RELATED PARTY TRANSACTIONS (continued)

Transactions and Balances with other Related Parties

Inventa Capital Operations Corporation (“Inventa”) is a private company that shares office space, furnishings and equipment, communications facilities, information technologies, basic accounting services, secretarial services and administrative services at a allocation of costs for the shared facilities. The allocation of costs include a component of overhead costs such as operating cost recovery related to office space, information technology services and general administrative support services. Inventa also incurs third party costs on behalf of the Company, which are reimbursed by the Company at cost. Several directors and other key management personnel of Inventa, who are close business associates, are also key management personnel of the Company.

A summary of the Company’s related party transactions with key management is as follows:

	Three months ended		Nine months ended	
	2025	December 31, 2024	2025	December 31, 2024

Total	22,843	39,537	70,686	118,611

11. CAPITAL MANAGEMENT

The Company’s capital structure consists of all components of shareholders’ equity. The Company’s objective when managing capital is to maintain adequate levels of funding to support the current operations comprising the acquisition, exploration and development of its mineral properties. The Company obtains funding primarily through issuing share capital. Future financings are dependent on market conditions and there can be no assurance the Company will be able to raise funds in the future.

There were no changes to the Company’s approach to capital management during the three and nine-month periods ended December 31, 2025. The Company is not subject to externally imposed capital requirements.

12. COMMITMENTS

Pursuant to a purchase agreement, the Company was required to issue to Kenorland 9.9% of any future common share issuances up to a number of common shares with an aggregate fair value of \$5,000,000 (Note 6). As at December 31, 2025, the Company had fulfilled its obligation and issued 542,061 common shares with a fair value of \$327,375.

13. SUBSEQUENT EVENTS

On January 8, 2026, the Company expanded its interest in the El Zanjón gold-silver project in Santa Cruz, Argentina by acquiring three additional exploration concessions, increasing the project area to 57,276 hectares. As the first tranche of option payments under the option agreement, the Company issued 1,250,000 common shares to Aegis Resources Ltd. at a price of \$0.20 per share.

On January 19, 2026, the Company issued 150,000 options vested immediately with an exercise price of \$0.25 and a term of five years.

On February 19, 2026, the Company closed a private placement for gross proceeds of \$4,025,000 by issuing 16,100,000 units of the Company (each a “Unit”) at a price of \$0.25 per Unit. Each Unit consists of one common share of the Company (each a “Share”) and one common share purchase warrant (each, a “Warrant”). Each Warrant entitles the holder thereof to acquire one additional Share (each, a “Warrant Share”) at a price of \$0.50 per Warrant Share until February 19, 2028, subject to an acceleration clause. If the 10-day volume-weighted average trading price of the Shares as quoted on the Canadian Securities Exchange is equal to or greater than \$0.90 at the close of any trading day, then the Company may, at its option, accelerate the expiry date of the Warrants by issuing a press release (a “Warrant Acceleration Press Release”) announcing that the expiry date of the Warrants shall be deemed to be on the 30th day following the issuance of the Warrant Acceleration Press Release (the “Accelerated Expiry Date”). All Warrants that remain unexercised following the Accelerated Expiry Date shall immediately expire and all the rights of holders of such Warrants shall be terminated without any compensation to such holder.
